# RA FLIGHT INSTRUCTOR RATING

Once you've clocked up some solid flight time and are looking for the next challenge, obtaining your RA-Aus Flight Instructor Rating is an ideal way to increase your aviation knowledge and set yourself up for a career as a Flight Instructor.

Even if you're not looking for a longterm career, undertaking work as an RA-Aus Flight Instructor is the perfect way to gain experience, increase flight hours as Pilot-in-Command (PIC) and teach others about what you're really passionate about: flying.

If you wish to qualify for entry as an airline pilot, building PIC hours is an inevitable requirement. Getting paid to teach as an RA-Aus Instructor enables you to build hours whilst refining your own piloting techniques and skill set.

# RA FLIGHT INSTRUCTOR RATING

An RA-Aus Flight Instructor Rating will qualify you to provide ground and in-flight instruction to students in a recreational aircraft, under the direct supervision of a Chief Flying Instructor (CFI).

The RA-Aus Flight Instructor Rating course is divided up into 20 hours of flight training and 30 hours of ground briefings, to ensure you learn how to instruct thoroughly in both practical and theoretical flight training settings.

Each lesson is delivered in accordance with RA-Aus syllabus, and requires a formal MASS Brief (long brief) and Pre-Flight Brief (short brief) to ensure full comprehension of the content, a higher likelihood of success and ultimately to make you a better flight instructor.

After full completion of the theory component of the course, as the instructor candidate, you will learn how to fly from the right hand seat.

## Flight Instructor Career Outcomes

Instructors get paid to help others to learn to fly. This allows you to build up to your minimum 500 hours working in a capital city rather than a remote area.

The Instructor Rating can also be a desirable additional qualification if you choose to commence your airline application process.
